

Dear Parents and Families,

Enclosed are your child's Non-Traditional Instruction (NTI) plans and activities. Plans are divided by each IEP goal your child currently has and include a checklist to help you keep track of what your child has completed. I have included materials for a possible third week of closure. At this time, we are only expected to be out for two weeks. These additional materials are not required at this time and are included just in case the closure period goes longer.

The plan lists additional materials that are needed for that activity, and directions of how to complete it. Keep in mind that home and school are very different environments and students are out of their routine, so the activity may take a longer or shorter amount of time than expected. If you find the activities are taking significantly longer than anticipated, please let me know and we can make adjustments. If you need suggestions on how to complete activities please let me know and I will be happy to share how we complete these things at school.

You will notice the format of activities are repetitive from day to day. This is purposeful as students need repeated instruction and multiple exposures to skills in order to learn and retain information. Hopefully, this will also help you create some structure and routine for your child as they complete their activities at home.

This is an unprecedented situation and we have worked quickly to put these plans and activities together for your child. Your flexibility, patience, and understanding is appreciated. I will be available during regular school hours throughout the closure to answer any questions or concerns. Please do not hesitate to reach out to me, including if you find you have needs beyond traditional school support through this difficult time.

I can be reached via the following methods:

Email: amber.huser@campbell.kyschools.us

Google Voice via Phone Call and Text: 859-739-3875

Class Dojo

School Phone: 859-635-2118 (you will have to leave a message, then the office will notify me)

I already miss the kids! Please tell them hi and give them a hug for me. Stay safe and healthy.

Ms. Huser
